

EDUCATION

*Must Last a
Lifetime*

FEW persons can afford to spend the time and money necessary to secure an education a second time because a wrong first choice has resulted in an inadequate training.

Thousands of our Alumni now in well-paid positions testify to the value of the right first choice.

Providence Bryant & Stratton College provides a practical education, the kind of business training that brings success to its students, and the assurance of advancement for those who master its intensive, specialized, thoroughly practical courses.

The rapid rise to places of leadership by so many of its 40,000 Alumni, and its record of more than sixty years of continuous growth and usefulness to the community it serves, are fundamental, convincing reasons why Providence Bryant & Stratton College should be the choice of those who seek Better Training for Better Positions in the business world.

Their Success may be Yours

MORE than threescore years ago—in 1863—Bryant & Stratton College was founded in Providence, Rhode Island. Its purpose was the equipping of ambitious, forward-looking young men and women with a thorough, practical business training.

Then, it was a Pioneer school in the field of business education. *Now* it is one of the oldest, largest, and best-known business training institutions in America.

Hundreds of prominent employers, and literally thousands of efficient, successful men and women workers in almost every line of business are Bryant & Stratton graduates.

The success of these graduates has become proverbial. The alumni of this college have given proof time and again of the sound, practical business training that students receive here.

Our records show that our students rise to positions of influence, frequently to positions of leadership in their chosen fields of endeavor.

And almost unanimously, Bryant & Stratton graduates are frank to credit the foundation of their success to the highly

specialized courses they took here. *They were wise enough to learn to do something better than the other fellow.*

What these men and women have been able to accomplish through Bryant & Stratton training, you can also accomplish, for the courses at the college today are stronger than ever before.

Read the letters printed in this booklet. See for yourself that the real history of Providence Bryant & Stratton College is written in human documents. Consider carefully that over 40,000 men and women have received their business education here and have gone out to win success in the business world. This splendid army of alumni, occupying so many positions of high rank in business, is the best evidence that Bryant & Stratton training will help YOU start right and get ahead.

Make your start today. Enter your name for the business education that will start you right, and advance you in your chosen line.

Have your ability trained where successful business men and women have been developed for over sixty years.

Outstanding Advantages of Providence Bryant & Stratton College

Bryant & Stratton regularly places its students with the leading business organizations of Southern New England. Thousands of requests are received annually for trained students equipped to fill high-grade executive positions.

"Learn-by-doing" methods of teaching assure a thorough understanding of business principles.

Small-Group Instruction—a teacher for every twenty students—is combined with individual attention wherever needed. Thoroughness and the most rapid progress possible are the unvarying results.

A Strong Faculty, composed of men and women who have specialized in their particular subjects, takes a personal interest in each student's particular requirements. Some of these teachers have been with Bryant & Stratton College for a decade or longer; indeed, one member of the faculty has been with us over forty years.

Splendid Equipment—every modern convenience and every up-to-date office appliance—helps prepare students for a successful business career.

Short, intensive, practical courses enable students to fit themselves quickly for business positions and to be of immediate value to any employer.

Moderate rates. Courses offered at a cost within the reach of every one who is ambitious to succeed and is willing to make an educational investment that will be repaid over and over again in a remarkably short time.

My dear Mr. Jacobs:

As a former student, it is pleasant to hear of the continued success of the Pace Courses in Providence and it may be equally gratifying to you, to know that in my contact with your students, I bear universal expressions of approval both of the course and the manner of its administration.

You are fortunate in having a well-balanced and carefully constructed course which is recognized as authoritative. Its treatment of accounting fundamentals is comprehensive and its instruction methods are interesting and practical. A recent examination of the course convinces me that no effort is spared in maintaining its high standards and in keeping the student in touch with modern developments in accountancy.

The personnel of the staff of instructors is of high type and from my personal knowledge of the various members and their capabilities, I can say that each displays an unusual interest in his work and has a complete mastery of his subject.

During the past few years you have furnished the community with many of its accountants both in private and in public work. As a practicing accountant and a member of the State Board of Accountancy, I am naturally interested in maintaining high standards for accountancy and I appreciate the co-operation afforded us by such institutions as yours.

Yours very truly,

Bryant & Stratton Training

"I know of no school of its kind where you can get as much for your time and money."

Regarding the methods and curriculum of your school, am pleased to state that I know something about it, not only as a student, but it has been my good fortune to engage the services of a number of bookkeepers and stenographers at different times who have taken courses there, and I have invariably noticed that they all have a thorough knowledge of the fundamentals of debit and credit, so essential to the counting room.

Much more could well be said, but it is sufficient for me to add that I know of no school of its kind where you can get as much for your time and money.

"Bryant & Stratton Instruction has been Invaluable to me."

From my experience at the Bryant & Stratton College, I can say that the instruction I received has been invaluable to me in the business world, and that the methods used were the most up-to-date ones.

I know of no better asset to any young man or woman than a commercial course, for the business men of today know the value of trained assistants.

"I am Glad to Recommend Your Courses."

Because of the sound, practical training in the fundamentals of business that is given in Bryant & Stratton College, I am glad to recommend your courses to young men and women about to enter business, or for those who wish to attain higher positions.

I believe that Rhode Island leadership in many industries is due, in part, to the excellent training available to young men and women in Bryant & Stratton College and the fact that so many take advantage of the opportunities its courses open up to them.

A Strong Factor in Educating Young People for Successful Business Careers.

As a former student of the Bryant & Stratton College, I am pleased to state my great appreciation of your excellent business course.

In addition to the assistance that I personally received, I have observed the satisfactory results obtained by your graduates who have been in my employ. They have all shown the results of careful, painstaking teaching.

For many years the Bryant & Stratton College has been a very strong factor in the educating of the young people of Providence for successful business careers.

Fits Any Young Man or Woman for Responsibilities in the Business World.

Earnest application during a course at your institution will fit any young man or any young woman for responsibilities in the business world, which would take years to acquire without the practical training to be had from you.

"Year spent at Bryant & Stratton of more practical benefit than any investment I could have made."

Certainly to anyone taking up a business career, a modern commercial training, as offered in your school, is quite essential. The trained employee has a big advantage, and promotion and its subsequent reward follow much more surely and quickly.

Personally, I consider the year spent at "Bryant & Stratton" of more practical benefit than any investment I could have made.

An Investment That Repays Students Many Times.

I believe that training in Bryant & Stratton College is an investment that repays the student many times. The untrained in business fundamentals drift aimlessly for a long while before they get their bearings. Your graduates come to us equipped to assume responsibilities.

It is a demonstrated fact that your graduates save many years of drudgery simply by investing in your courses. We are always on the lookout for men and women who believe enough in their future to invest their time and money in it.

My Dear Mr. Scott:-

It gives me pleasure to add my word
of commendation of your course of instruction to any young
man or woman contemplating a business career.

To any such let me say, there is always opportunity
waiting those who properly avail themselves of the training
received at your college.

I deem this training of inestimable value and have
found it can be turned to distinct advantage in many ways.

Accountancy Course leads to Membership in Firm.

I hold the Pace Course in Accountancy in the highest esteem, for I attribute my present degree of success directly to it, using a High School Course and your Commercial and Stenographic Courses as a foundation on which to build.

I took up the Pace Course Sept. 30, 1913; completed it in five semesters, and took final examinations in the sixth semester. In November, 1919, I took the prescribed examination and received the C. P. A. degree.

For the past five years I have been associated with Ward, Fisher & Company, public accountants, entering their employ as a junior accountant, and for some years have been a member of the firm.

Bryant & Stratton Course in Accountancy an Invaluable Asset.

I know of no better way nor of a better place of getting the necessary training with which to enter the business world than by taking the good, sound course in Accountancy and Business Law which the Bryant & Stratton College offers. Such a course is an invaluable asset.

I feel that my present position with one of the largest public accounting firms in the country is largely due to the training I received in taking the Pace & Pace Course in Accountancy at your school and to the recommendation given me by you.

Bookkeeping Course Secures Higher Salary.

I entered Bryant & Stratton Business College to help me overcome my lack of knowledge of the way in which modern business is conducted.

I was well fitted for my first position, after graduation, which was secured for me through the school. After six months in that position, I left to take a higher salaried position in an office where I had worked before entering school.

I heartily endorse the Bookkeeping Course offered by the Bryant & Stratton College as being thoroughly practical and up-to-date, and the College is one which gives its patrons a square deal.

Bryant & Stratton Training is Indispensable.

After graduating from the East Providence High School I took the Bryant & Stratton Secretarial Course. As a result of the splendidly thorough and practical training which I received at Bryant & Stratton, I have been able to successfully act as secretary to several busy executives of a large store.

In my daily work, which is necessarily of a diversified and exacting character, I find my Bryant & Stratton training indispensable in performing duties and shouldering responsibilities that I could not otherwise have handled satisfactorily.

I cannot praise the Bryant & Stratton Secretarial Course too highly to any one who is contemplating entering upon a business career.

Qualified for Larger Salary in Evening Teacher-Training Course.

I am pleased to endorse your Teacher-Training Course for those desiring to enter the interesting profession of commercial teaching.

After being graduated from Rhode Island College of Education, I spent several years teaching in the grade schools of this city, when it occurred to me that with additional training in commercial subjects, I might qualify for larger returns in salary and opportunity.

Fortunately your evening sessions made this possible. I completed a full course and obtained your Bachelor of Commercial Science Degree. While it took a longer time than if I had attended your day sessions, the fact that I did not have to interrupt my daily work compensated me for the time invested.

I am now teacher of stenography in the Pawtucket High School and recognize that the thorough training I received at Bryant & Stratton College was the means by which I advanced to my present position.
